SUMMARY

Frontend Developer with 4+ years of experience building responsive web applications using React, JavaScript, Tailwind CSS, and Supabase. Experienced in REST API integration, authentication, CRUD operations, component-based architecture, and modern frontend development workflows. Passionate about creating scalable and user-friendly web applications. Proficient in leveraging AI-assisted development tools and prompt engineering techniques to accelerate development, debugging, code refactoring, and documentation.

SKILLS

- Languages: HTML5, CSS3, JavaScript (ES6+)
- Frontend: React, Redux Toolkit
- Styling: Tailwind CSS, Sass
- Backend & Database: Supabase
- Tools: Git, GitHub, Vite
- Concepts: REST APIs, CRUD, Responsive Design
- AI Tools: GitHub Copilot, Claude Sonnet, ChatGPT

PROFESSIONAL EXPERIENCE

Jul 2021 - Present

Frontend Developer — INADEV India

- Built 3+ enterprise web applications using React, JavaScript, HTML, and CSS.
- Created component-based frontends using functional components, hooks, and modular UI architecture.
- Improved application performance through debounced search, lazy loading, and optimized API request handling with loading and error states.

KEY PROJECTS

8Twelve Mortgage Application | Website: <https://8twelve.mortgage/>

- Mortgage application for brokers and customers, enabling mortgage application management and related workflows.
- Developed and maintained frontend functionality and shared UI components.
- Integrated REST APIs and partnered with cross-functional teams to deliver enhancements.
- Resolved bugs, performed debugging, and wrote unit tests to improve application quality.

Permit Wizard | Website: <https://dob.dc.gov/>

- Online permit application portal for residential and commercial construction permits in Washington DC.
- Implemented responsive user interfaces with functional components, hooks, and REST API integration.
- Partnered with cross-functional teams to deliver enhancements, fix defects, and maintain code quality through unit testing.

PERSONAL PROJECTS

1. Employee Management System

URL: <https://kd-ems.vercel.app/> | GitHub Repo: <https://github.com/koustavdeb-git/kd-employee-management-system>

- This is a dynamic employee management platform with CRUD operations, pagination, search, sorting, and dashboards.

2. KD FlowBoard

URL: <https://kd-flow-board-app.vercel.app/> | GitHub Repo: <https://github.com/koustavdeb-git/kd-flow-board-app>

- This full-stack Kanban board application enabling users to create projects, manage tasks by drag & drop, and track workflow progress.

EDUCATION

Aug 2016- Aug 2020

B.Tech in Information Technology

MCKV Institute of Engineering
