### SUMMARY

Frontend Developer with 4+ years of experience building responsive web applications using React, JavaScript, HTML5, CSS3 and Tailwind CSS. Experienced in reusable React components, React Hooks, REST API integration, Redux Toolkit and Context API for application state management. Skilled in modern server-state and data-fetching patterns with TanStack Query, with a focus on scalable UI development, performance optimization and Agile delivery.

---

### TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), HTML5, CSS3

**Frontend:** React, React Hooks, React Router, Functional Components

**State Management:** Redux Toolkit, Context API

**Data Fetching & APIs:** TanStack Query, REST APIs, Axios, CRUD

**Styling:** Tailwind CSS, Sass, Responsive Web Design

**Forms:** React Hook Form, Form Validation

**Tools:** Git, GitHub, Vite

**Backend & Database:** Supabase

**Development:** Agile/Scrum, Sprint Planning, Code Reviews

---

### PROFESSIONAL EXPERIENCE

**Frontend Developer — INADEV India | Jul 2021 – Present**

- Developed and maintained 3+ enterprise web applications using React.js, JavaScript (ES6+), Tailwind CSS and REST APIs.
  - Built reusable React components with functional components, React Hooks and modular UI architecture to support scalable feature development.
  - Managed application state using Context API and Redux Toolkit, enabling consistent state management across cross-module workflows.
  - Integrated REST APIs with asynchronous data-fetching, loading states and error handling for production workflows.
  - Improved frontend responsiveness through lazy loading, debounced queries and optimized component re-rendering.
  - Collaborated with clients and cross-functional engineering teams during Agile sprint planning, estimation, code reviews and feature delivery.
- 

### FEATURED PROJECTS

**8Twelve Mortgage Application** | <https://8twelve.mortgage/>

- Mortgage application platform for brokers and customers, supporting mortgage solutions and end-to-end lending workflows.
- Built reusable React.js components for broker and customer workflows, improving consistency across application modules.
- Connected frontend workflows with REST APIs for mortgage data synchronization and improved page-load performance.
- Implemented Role-Based Access Control (RBAC) to segregate broker administration systems from customer-facing dashboards.
- Resolved 50+ production issues, contributing to a 30% reduction in post-release incident tickets.
- Collaborated with a 20-member cross-functional team to deliver production-ready lending features.

**Permit Wizard** | <https://dob.dc.gov/>

- Online permit portal for residential and commercial construction permits in Washington, D.C.
  - Created responsive React.js interfaces using functional components, React Hooks and REST API integration for residential and commercial workflows.
  - Implemented React Hook Form with validation across 10+ dynamic modules, improving form state management and submission reliability.
  - Partnered with cross-functional teams to translate design requirements into production-ready frontend features.
- 

### PERSONAL PROJECTS

• **Employee Management System** | Live Demo: <https://kd-ems.vercel.app/> | GitHub: <https://github.com/koustavdeb-git/kd-employee-management-system>  
Built a React employee management dashboard with CRUD operations, pagination, search, sorting and dashboard visualizations.

• **KD FlowBoard** | Live Demo: <https://kd-flow-board-app.vercel.app/> | GitHub: <https://github.com/koustavdeb-git/kd-flow-board-app>  
Built a full-stack Kanban board using React and Supabase with project CRUD, task management, drag-and-drop workflows and progress tracking.

---

### EDUCATION

**B.Tech in Information Technology** — MCKV Institute of Engineering | Jun 2016 – Aug 2020

---

### CERTIFICATIONS & ACHIEVEMENTS

- Advanced React Certification — META
- JavaScript Certification — Scaler
- Super Squad Award — recognized for delivering high-priority ad-hoc sprint features on time.
- Client Commendation — received formal appreciation from 8Twelve stakeholders for successful platform delivery.
